FMS.39.2 Results of inspection and testing of kitchen equipment are documented as follows:

FMS.39.2.1 Hood fans are in good operating condition and free from grease.

FMS.39.2.2 Hood filters are cleaned weekly and no cooking is done with missing filters.

FMS.39.2.3 Cold room temperature is monitored.

FMS.39.2.4 Kitchen and pantry microwaves, stoves, and ovens are at least annually tested and maintained.

Standard Intent:

Hospital should maintain the kitchen and laundry equipment in good working condition. Maintenance and inspection program should be developed and results documented with proper action taken highlighted.
