

Revision of the Official Survey Findings Report

The hospital has ten (10) calendar days from receipt of the Official Survey Findings Report to request, in writing or by e-mail, revision of the report related to one or more survey findings. Appropriate data and supporting information must accompany the request. The JCI Accreditation Central Office staff will review the materials and contact the hospital and/or surveyors as needed in evaluating the information. When the request for revision of the report would change the survey outcome, the JCI Accreditation Council then considers the request for revision and makes the final accreditation decision.

Accreditation Decisions

JCI makes accreditation decisions by applying decision rules to the scored standards. Decision rules determine an accreditation decision that appropriately represents an organization's overall performance as measured by evidence of compliance with the applicable standards.

The JCI Accreditation Council may exercise reasonable discretion in individual cases to determine whether to vary from applicable decision rules in furtherance of JCI's mission to continuously improve the safety and quality of care in the international community. JCI Accreditation Council considers all information from the initial or triennial full survey and any required follow-up surveys in making its decision regarding accreditation. The outcome is that the organization meets the criteria for accreditation or does not meet the criteria and is denied accreditation.

Appeal of Decisions to Deny or Withdraw Accreditation

Hospitals have the right to appeal adverse accreditation decisions. If, based on a full or follow-up survey, or a threat-to-life health and safety situation, there is a decision to deny or to withdraw accreditation, an organization has 10 calendar days from receipt of its Official Survey Findings Report or notice of accreditation withdrawal to notify JCI, in writing or by e-mail, of its intent to appeal the decision. After submission of the intent to appeal, the organization has thirty (30) calendar days from the appeal request date to submit materials to support its appeal to JCI.

The appeals process affords the hospital an opportunity to present materials as outlined in the JCI Appeals Policy. JCI reserves the right to update its policies and procedures from time to time and recognizes the *JCI Direct Connect* website as the official location for the posting of all current policies and procedures regarding the JCI appeals process. In the event of any conflict between the JCI manual currently in effect and a JCI policy or procedure as posted on the *JCI Direct Connect* website, the policy or procedure on the *JCI Direct Connect* website shall govern.

Public Disclosure and Confidentiality

Confidentiality

JCI keeps confidential all matters having to do with the accreditation process except the following:

- An accredited hospital's status (that is, whether the organization is accredited, was denied accreditation, or if accreditation was withdrawn by JCI)
- The number of complaints submitted about an organization that meet the JCI criteria for review

The official accreditation status of a hospital is noted on the JCI website as either Accredited (including the date of the accreditation decision) or Accreditation Withdrawn (including the date the decision was made to withdraw accreditation). JCI posts the status of Accreditation Withdrawn on the JCI website for one year.

When an organization voluntarily withdraws from the accreditation process, JCI posts this and the date of the withdrawal on the JCI website. The accredited hospital may release more detailed information on its accreditation status, up to and including its Official Survey Findings Report, to whomever it wishes. However,
