

## **سياسة الامتيازات والصلاحيات الـاكلينيكية للأطباء : Policy**

- all practicing physicians are qualified and have clinical privileges according to their field and Specialty.
- Each facility is obligated not to authorize any doctor to practice before obtaining the clinical privileges
- Each practicing physician obtains clinical privileges according to the classification of the Saudi Commission for Health Specialties for independent practice.
- A physician may be granted emergency medical privileges in an emergency without having the emergency clinical privileges to save lives under specific conditions and according to the standards of the Saudi Center for Accreditation Health facilities.
