

FMS.14.5.3 Corrosives, acids, and toxic materials.

FMS.14.5.4 Hazardous gases and vapors.

FMS.14.5.5 Anesthetic gases.

FMS.14.5.6 Flammable liquids.

FMS.14.6 Any leak, spill, or exposure to any hazardous material is reported.

### **FMS.15 The hospital implements a waste management plan.**

- FMS.15.1 The hospital has a waste management plan that includes handling, storing, transporting, and disposing all kinds of waste (e.g., clinical waste, radioactive waste, and hazardous gases).
- FMS.15.2 The plan is implemented.
- FMS.15.3 Staff (including contractors' staff) are trained on dealing with hazardous waste.

### **FMS.16 The hospital ensures preparedness for external disasters.**

- FMS.16.1 The hospital has a plan to deal with potential external disasters. The plan includes:
  - FMS.16.1.1 Identification of all potential external emergencies and disasters.
  - FMS.16.1.2 Names and titles of all staff to be called including their contact numbers and action cards.
  - FMS.16.1.3 Duties and responsibilities of hospital leaders.
  - FMS.16.1.4 The triage areas, their locations, and triage action cards.
  - FMS.16.1.5 The individual responsible for announcing the emergency state and contacting the local authority.
  - FMS.16.1.6 The control room location and the person in charge.
  - FMS.16.1.7 The total number of beds that can be evacuated.
  - FMS.16.1.8 The role of the security personnel.
  - FMS.16.1.9 The role of each department in the hospital.
- FMS.16.2 The hospital conducts an external disaster drill at least annually.
- FMS.16.3 The hospital ensures the availability of ambulances and medical supplies and equipment required in case of external disasters (e.g., medical bags, drugs and mobile monitors).
- FMS.16.4 There is an orientation on the external disaster plan for new hires with an annual update for all staff.

### **FMS.17 The hospital ensures preparedness for internal disasters.**

- FMS.17.1 The hospital has a plan to deal with potential internal disasters. The plan includes:
  - FMS.17.1.1 Names and titles of all staff to be called in case of internal disaster, their contact numbers, and action cards.
  - FMS.17.1.2 The control room location and the position of the individual in charge.
  - FMS.17.1.3 The duties and responsibilities of hospital leaders.
  - FMS.17.1.4 The procedure for relocation of patients.
  - FMS.17.1.5 The individual responsible for announcing the emergency state and contacting local authority.
  - FMS.17.1.6 Individual(s) authorized to deal with the electricity supply and medical gas system and to shut them off as needed in case of fire or explosions in the hospital.
  - FMS.17.1.7 The meeting point for the staff in case of horizontal evacuations (assembly points) inside the building.
