

## *Examples of Privileging Documentation*

<b>Verification of fitness for duty to assess to ensure all clinical staff have the physical and cognitive ability to safely perform their duties.</b>	Completed statement or attestation of fitness for duty from the provider that is confirmed either by the director of a training program, chief of staff/services at a hospital where privileges exist, or a licensed provider designated by the health center.
<b>Verification of immunization and communicable disease status</b>	<p><b>Immunization Status:</b> Copy of immunization records/status in provider's file or provider attestation, including, if applicable, any declinations. (To follow recent approved national guidelines in this regard)</p> <p><b>Communicable Disease Status:</b> Copy of completed tuberculosis (TB) test or screening (for example, copy of purified protein derivative (PPD) testing and chest x-ray (CXR)) and any other communicable disease testing or screening as determined by the health center (for example, Hepatitis). (To follow recent approved national guidelines in this regard)</p>
<b>Verification of current clinical competence</b>	For initial privileging: Verification of current clinical competence via training, education, and, as available, reference reviews.  For renewal of privileges: Verification of current clinical competence via peer review or other comparable methods (for example, supervisory performance reviews).

**Granted Privileges**
